LTR361 201112

This certificate is issued by the company under its General Conditions for Certification Services accessible at [www.sgs.com/terms\\_and\\_conditions.htm](http://www.sgs.com/terms_and_conditions.htm). Attention is drawn to the limitations of liability defined therein and in the Test Report here above mentioned which findings are reflected in this certificate. Any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law.

**Name and address of the factories:****Additional information:**

The certificate covers the equipments trademark IntesisHome, models xx-RC-WIFI-1x, xx-RC2-WIFI-1x (model tested); xx-RC3-WIFI-1x and xx-AC-WIFI-1x.

The four models have the same construction and as the manufacturer specifies, they have the same hardware; the difference between them is the firmware in PIC microcontroller.

The appliance is an external module that is connected to an air conditioner unit into a Wi-Fi network in order to provide remote control applications through its interface.

The equipment is powered by its connection to the air conditioning unit through a bus cable. The appliance receives and sends information to the air conditioner via its bus connection and the corresponding information to the user via Wi-Fi.
