

# FS-8705-50 – Protec Driver

DATASHEET - Rev 1

## DESCRIPTION

The serial driver can be a part of an RS485 trunk that reads data from Propoint panels polls for rectifier, weather and other data from **Protec Cirrus Hybrid** and **Propoint Plus** panels.

Driver can receive unsolicited fire and fault events, poll for data, execute commands like 'Silence' The driver has an Auto Discovery process and can be implemented easily.

## CONNECTION FACTS

| FIELDSEVER MODE | NODES | COMMENTS  |
|-----------------|-------|---|
| Client          | Many  | The FieldServer will be able to poll multiple SMA Web Boxes |
| Server          | 0     | Not supported or documented.                                |

## FORMAL DRIVER TYPE

Ethernet  
Client

## COMPATIBILITY

| FIELDSEVER MODEL | COMPATIBLE |
|------------------|------------|
| FS-QS-2XX0       | Yes        |
| FS-QS-3XX0       | Yes        |
| FS-QS-1X11       | Yes        |

## CONNECTION INFORMATION

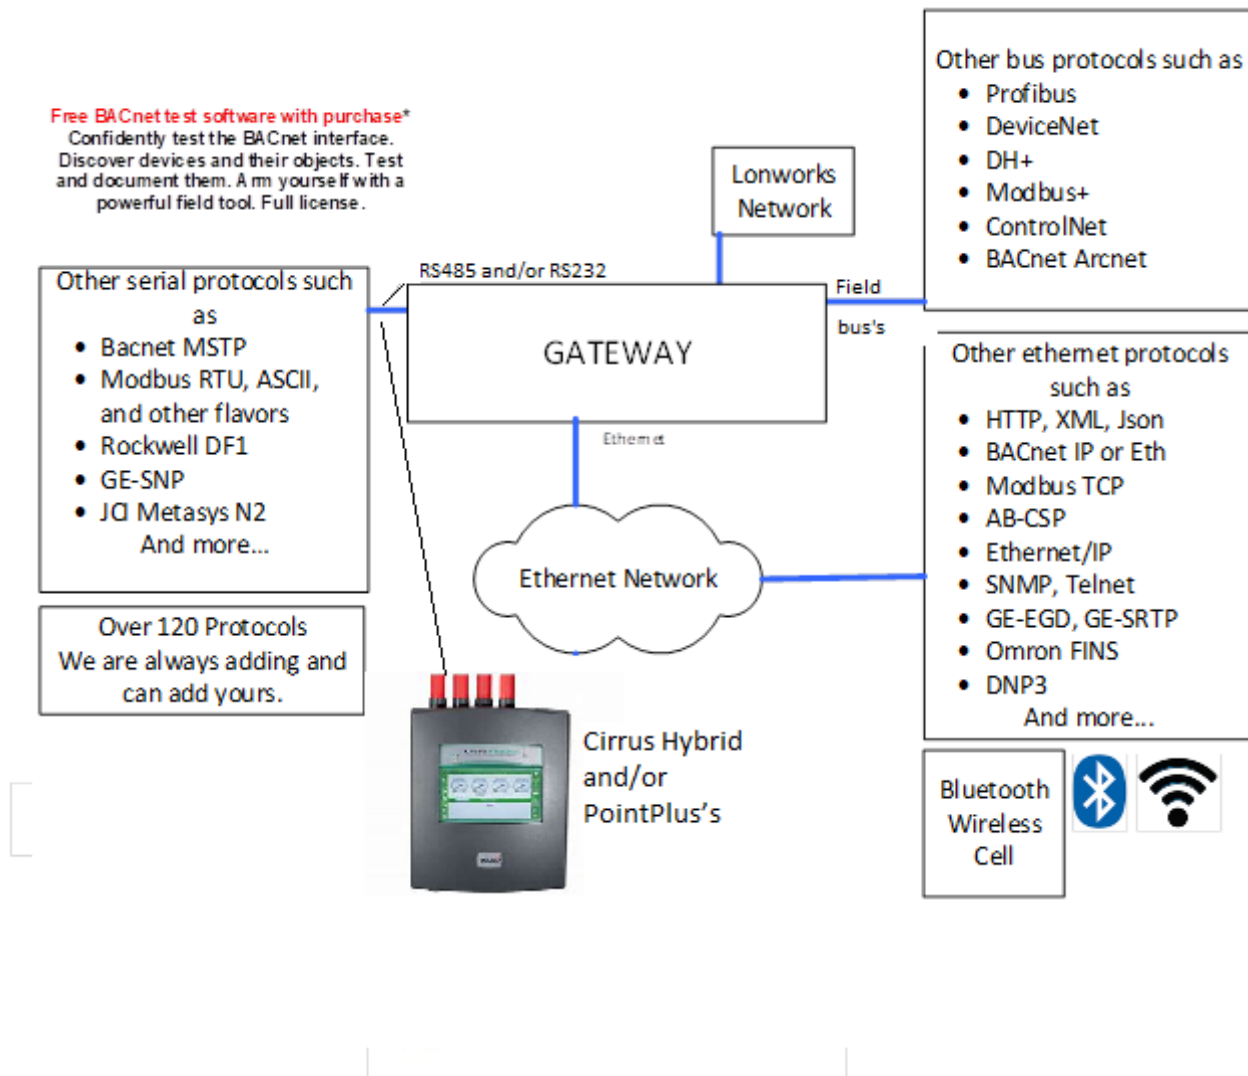

|                       |                            |
|-----------------------|----------------------------|
| Connection Type:      | RS485                      |
| Hardware Interface:   |                            |
| Multidrop Capability: | Only one gateway per trunk |

## DEVICES TESTED

| DEVICE                                 | TESTED (FACTORY, SITE)   |
|--|--|
| Protec Cirrus Hybrid and Propoint Plus | Chipkin Lab – tested with one of each panel<br>SafeFire – Tested 2024Jan |

## CONNECTION CONFIGURATIONS

Multiple upstream protocols and connection supported. See list of FieldServer Drivers.

### DRIVER FUNCTIONALITY

There is more than one SafeFire driver. This one, developed for SafeFire for **Protec Cirrus Hybrid** and **Propoint Plus**

The Driver can read and write data, change settings and issue commands to the Protec panels. The driver receives fault data and fire data when sent by a panel. This means this particular data is updated as soon as the event occurs. A single gateway can connect to multiple Protec panels on a RS485 bus using this driver. Each FieldServer gateway has 2x RS485 ports and thus two trunks of Protec panels can be monitored by one FieldServer Gateway.

The data that is read will be cached for serving via a 2<sup>nd</sup> protocol such as DNP3 to Cimplicity or Modbus / BACnet for a building management system. Any of the over 140 protocols in the gateway library may be connected to the Hunter Driver.

The gateway requires minimal configuration and has an **auto discovery** process and therefore can be considered a plug and play component of a system, in that it is ready to operate out of the box with the default configuration.

A rudimentary web page is provided for testing.

## CUSTOMER SUPPORT

Protec Driver for FieldServer was developed by Chipkin, and we are proud to provide support for our products. For technical support, sales and customer service, please call us at 1 (866) 383-1657.

Thanks for choosing Chipkin’s products and integration services to meet your building and industrial automation requirements!

Chipkin™ is a building and industrial automation protocol expert. We develop, configure, install and support gateways (protocol converters), data loggers and remote monitor and controlling applications. Founded in October 2000, Chipkin provides expert solutions for converting BACnet®, Modbus®, and LonWorks®—to name just a few—and enabling interfaces for HVAC, fire, siren, intercom, lighting, transportation, and fuel systems. The high-quality products we offer (including those from other vendors) interface with Simplex™, Notifier™, McQuay™, GE™ and many others—so you can rest assured that we will select the most appropriate solution for your application.

With Chipkin you are buying a solution. Our configuration expertise in this field combined with free BACnet and other tools ensure your success; and our customer support via phone, email and remote desktop tools means that we are there when you need us. Chipkin is a small responsive company, and we live or die by the quality of our service—and with offices in two time zones—we can provide support when you need it. Give us a call now!
