Hello Peter,

Art from Veeder Root has confirmed that the 330020-424 TCP/IP Communications module will work for our CAS 2700-03 Veeder TCP Gateway.

Alex

Look at scan 017 at communication modules. Is that what we need ?

Peter

Peter,

Thank you for your time on the telephone today. Attached is the Veeder Root equipment that was ordered for the Job I am referring too.

They are wanting to tie this system into their building control system. I believe it is Johnson controls.

Thank you for your time and help.

Sincerely,

Lisa M. Richmann
